Professional Profile

Willis (Bud) Robison, P.E. (AZ, CA)

Hello, I'm Bud Robison and I will be running for a BOD seat in the next RSA election. I have served briefly, some 2 years ago, but had to withdraw when our house construction began. Linda and I are building the house ourselves and this includes all the engineering and construction. Now that it is nearing completion, I would again like to serve you on the Board as a Director and advisor for Airpark Operations and Maintenance.

There is a lot to be done in the airpark, mostly in roadway and drainage maintenance. As an Engineer, I've overseen construction, reviewed bids and awarded contracts for roads, bridges, water and wastewater facilities as well as wireless controls for these projects.

Ruby Star Airpark needs experienced people committed to work for our community. It is my hope to provide solutions that support our residents and improve our neighborhood.

As we all know, RSA doesn't have a lot of money. What we do take in has to be managed carefully. I believe the park should expect to be saving as much as possible while still meeting our day to day expenses.
